DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 - 40, drawn to monitoring programs watched by a viewer, classified in class 725, subclass 9.
- II. Claim 41, drawn to an EPG having a link to an on-line resource, classified in class 725, subclass 51.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as EPG's having link to an external information source i.e. website on the Internet. See MPEP § 806.05(d).
